

2009 Fall Camporee Checklist

Another year has gone by and it is time to award the District Flag to the hardest working and most deserving troop. The competition will be tough on this camping trip, so brush up on your Scout skills. May the best troop win and good luck to all.

Each troop needs to bring their fire wood with them. The land owner would like for each troop to dig a fire pit (remove sod to cover the pit back up when we are done). No above ground fire barrels please. Remember we want to leave no trace.

Each troop needs to bring water with them.

Don't forget that each troop is required to do a skit at the camp fire. It counts for the district flag competition.

All scouts need their class-A uniform with them to wear to an Eagle ceremony and to campfire. We will be holding both where people driving by can see us and we want to look sharp. Each troop needs to bring their troop flag with them. I would like to set them up at campfire.

There will be port-a-johns available for all to use. Please remind everyone to help keep them clean.

The Camporee will be held at Roscoe Young's farm at the intersection of East rd. and Piney Mountain rd. You will enter the field from Piney Mountain rd. Look for the sign. If you need directions, call Sammy Mabe @ 414-5582.
